| Studiengang im Ausland                                                           | Project Management                                                                                                                                                                                                                                            |
| Unterrichtssprache                                                               | English                                                                                                                                                                                                                                                       |
| Förderprogramm                                                                   | Erasmus +                                                                                                                                                                                                                                                     |
| Vor dem Auslandsaufenthalt                                                       |                                                                                                                                                                                                                                                               |
| Motivation für den Auslandsaufenthalt, Zielland, Gasthochschule                  | To gain international experience and immerse myself in a new culture.                                                                                                                                                                                         |
| Planung und Vorbereitung                                                         | I researched my host company, arranged housing, and handled paperwork in advance, while also familiarizing myself with Spanish culture.                                                                                                                       |
| Sprachliche Vorbereitung                                                         | Since my work environment was international, I didn't focus much on language                                                                                                                                                                                  |
| Während des Auslandsaufenthalts                                                  |                                                                                                                                                                                                                                                               |
| Studium und Gasthochschule                                                       | Project Management. Eu Tech Engineers                                                                                                                                                                                                                         |
| Kosten                                                                           | 940                                                                                                                                                                                                                                                           |
| Unterkunft                                                                       | 330                                                                                                                                                                                                                                                           |
| Leben vor Ort und Alltag                                                         | Involved working on projects collaborating with an international team. Outside of work, i enjoyed local food and explored nearby places on weekends.                                                                                                          |
| Herausforderungen und Dein größtes Abenteuer                                     | The biggest challenge was stepping out of my comfort zone and quickly learning how to work in fast-paced international setting. My greatest adventure was immersing myself in Spanish culture and building connections with people from different background. |
| Nach dem Auslandsaufenthalt                                                      |                                                                                                                                                                                                                                                               |
| Deine Erfahrung mit Anerkennung von im Ausland erbrachten Leistungen an der THGA | I had already completed all the credits required for my program, so there was no additional credit needed.                                                                                                                                                    |
| Was hat Dir das Leben in einer fremden Kultur persönlich gebracht?               | Boosted my confidence, adapt to new environment and develop a more open minded perspective.                                                                                                                                                                   |

|                                                                                                                        |                                                                                                                                                                                                   |
|------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Was hat Dir das Auslandsstudium fachlich gebracht und wie wirst Du das zukünftig nutzen können?                        | Enhanced my skills in project management, teamwork, and cross-cultural communication. Now i feel better prepared to work in international settings, which will be invaluable in my future career. |
| Deine Botschaft und Dein Tipp an zukünftige Outgoings                                                                  | Step out of your comfort zone. Personal growth comes from taking new challenges and adapting to new environments.                                                                                 |
| Bitte fügen Sie Bilder, die Ihren Auslandsaufenthalt am besten zeigen, hinzu (ein Portrait und Fotos aus dem Gastland) |                                                                                                                                                                                                   |
